

Pussy and Pooch (Main and 6th)

Thank God Pussy and Pooch opened so I don't have to drive all the way to Hollywood for lil bitch's food and treats dude! I don't like Lofty Dog, period. Very pushy. My bitch is going to Pussy and Pooch because their Robert knows about raw diet. Their dog that greeted me, Cosmo, has been on raw meat for a year I heard. Most dogs don't eat raw rabbit meat. It's not the most convenient thing to feed but my lil biatch is sick, no choice. I got a bag of patties from Janine, the girl I called on the phone before. She said it's \$12 to take a bath there. Well not you! For a small dog! You wash them there yourself.
